

Welcome to your new home!

When you first move in to your new home, it is very important to get all of the necessary utilities switched into your name. Taking care of this promptly will insure that you do not experience any outages in service during the transition period.

For your convenience we have put together a list of most of the local utility companies. We hope you find this information helpful. If you have any questions in regards to which utilities need to be switched into your name, please refer to your lease agreement, or simply call us at: (218) 336-2999.
